Mrs. Patti Bostwick
Zionsville Community Schools
900 Mulberry Street, Zionsville IN 46077

Dear Patti,

It is my pleasure to recommend Kyle Beimfohr for the position of Technology/Computer Technician for Zionsville Schools. I have known Kyle for over twenty years. He and I worked together while performing at a theme park near Indianapolis. He was an incredible performer. This experience on the stage uniquely prepared him for being in front of a classroom of students.

Very similar to my own experience, Kyle was a classroom teacher for several years before accepting a position as a technology integration specialist for Avon Schools. He was a leader at Avon as they stepped into the world of 1:1 at the Avon Advanced Learning Center. Kyle and I often collaborated and shared ideas for integrating technology as my own school district had just completed our own Senior Academy in Brownsburg.

I have found Kyle's skills as a technology integrator to be top in his field. As the owner of my own educational technology consulting company, EdTechZone, I found Kyle's abilities to be exactly what we needed when we were looking for a trainer to work with various school districts across the state. Kyle did a fantastic job for us on several occasions and is still being considered for future opportunities with EdTechZone.

Kyle has a great personality and works well in any work environment. He is a great leader, but he also works well on a team. He takes direction but isn't afraid to voice his opinions and ideas for the best interest of the project.

With his experience in the classroom and as an integration specialist, Kyle would be a welcome member of any technology team. I have no doubt that you will be exceptionally pleased if you decide to hire him.

Should have any further questions, please do not hesitate to contact me.

Sincerely,

Robert Grimes
